- Custom Carpets:
  The company is renowned for its ability to fulfill the custom wishes of the most discerning clients. As a bespoke floorcovering boutique, PFM creates one-of-a-kind rugs and carpets that exude luxury and fine design.

  Care and Maintenance:
  All Patterson, Flynn & Martin floorcoverings are carefully crafted for exceptional beauty and longevity. Selection of appropriate construction and fibers is important as both factors affect floorcovering performance and maintenance. Proper care can preserve a floorcovering's pristine appearance for years to come. The following organizations provide detailed information on proper care and maintenance:
  - The Carpet and Rug Institute
  - Wools of New Zealand

  Green/Sustainable:
  Patterson, Flynn & Martin is committed to doing its part to protect the planet by conducting business in the most environmentally responsible manner possible.

  The majority of collections feature products made of 100% wool, which is one of the world's purest and most ecologically friendly fibers. The company also focuses on prioritizing responsible manufacturing and identifying ways to increase its use of sustainable resources. Patterson, Flynn & Martin utilizes a wide variety of fibers and manufacturing methods to meet designated project criteria.

  Patterson, Flynn & Martin's primary fiber of choice is New Zealand Wool. The fiber is sustainable and responsibly cultivated. To collect this biodegradable and renewable resource, only environmentally responsible production methods are used. No internationally-banned pesticides are used on New Zealand sheep farms and New Zealand's sheep industry is one of the world's greenest animal-based production systems.
