

American Bungalow Horizontal DresserAC-HD

American Bungalow Horizontal Dresser manufactured by Thos. Moser Cabinetmakers

In a feat of suspension, we've used our hallmark American Bungalow construction to create a highly functional horizontal dresser, featuring six well-knit drawers and a broad solid cherry top. Reverse-tapered solid cherry legs are braced at the bottom for extra support. The drawers hang in the framework to allow for seasonal expansion and an uninterrupted flow of light. Japanese wrought-iron pulls echo an Arts and Crafts aesthetic that derived balance and grace in the juxtaposition of opposites and the execution of precise craftsmanship.
